

Our office does not do any amalgam or silver fillings. We only place tooth colored fillings in all teeth, both front and back. We feel that not only is the esthetics greatly improved, but the chemical seal greatly improves the quality of the restoration. Some Insurance companies do not pay for these types of fillings because it is less expensive for them. You will be responsible for any difference not covered by your insurance.

Drs. Finkelman, and Machlus

I have read the above statement and understand what my responsibility will be
